

WTBA Learning Journey: Law

INTENT

The ethos of the department is to promote and develop analytic thought, the ability to make decision and think critically whilst building on problem solving skills. In turn this will allow students to be able to engage in successful debates. There is a focus on evaluation and analysis along with using problem solving skills in order to apply the law to set scenarios. The study of Law will promote good literacy, make students aware of the world around them and incorporate British Values such as tolerance and respect to their every day learning.

Key Themes

- Law Making 
- Criminal Law 
- Human Rights Law
- The Law of Tort
- People in Law

Post-16 Links

- Law
- Politics
- Journalism
